

Huzeir Kurpejovic

Mobile App Development student at St. Clair College

Windsor, ON N8T 2Y5

huzeir2k@gmail.com

+1 313 917 1510

A skilled developer that specializes in Mobile Applications, as well as front-end development.

- Likes going outside, and exploring places.
- Likes solving problems, facing challenges and surmounting them, providing solutions, and ultimately becoming a leader.
- Dislikes difficulty in team co-hesion, poor decision making, indecisiveness, and not challenging authority in order to make necessary progress.

Work Experience

Student

St. Clair College

September 2019 to Present

As a current student of St. Clair College's Mobile Applications Development program, I achieved the following:

- A java project consisting of a 3-person team
- A java project consisting of a 2 person team
- A solo Android project

During my currently enrolled time in my program, I have learned the following:

- Basic web development (HTML, CSS, JavaScript)
- PHP web development alongside SQL
- Android development with Java and XML
- iOS development with Swift
- Object-Oriented Analysis and Design knowledge
- Game development utilizing the Unity 3D game editor and programming in C#
- Understanding Agile development methodology, as well as other development methodologies
- RESTful API development utilizing Spring Boot (Java) and Laravel (PHP)
- Web framework development utilizing Bootstrap and Angular

As I am finishing up the other half of the program, I am looking forward to understanding:

- Cross-platform development
- New technologies and trends
- Entrepreneurship
